## **School Policy**

New technologies have become integral to the lives of children and young people in today's society, both within school and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

### **This Acceptable Use Policy is intended to ensure:**

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for pupils learning and will, in return, expect staff and volunteers to agree to be responsible users.

## Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed online safety in my work with young people.

### For my professional and personal safety:

- I understand that the school will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (e.g. laptops, tablets, mobile phones & email) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person. (Tim Clark)

### I will be professional in my communications and actions when using School ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will not access social networking sites, personal email, any website which is unconnected with school work or business from school devices or whilst teaching / in front of pupils. Such access may only be made from personal devices whilst not in the presence of children.
- I will only communicate with pupils and parents / carers using official school systems. Not via my personal email address or personal telephone number. Any such communication will be professional in tone and manner.

### The school have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school.

I will not try to use any programs or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not install or attempt to install programs of any type on a machine, or store programs on a computer, nor will I try to alter computer settings.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
